Professional Digital Photography

Thank you for considering Huw Thomas Photography for your wedding requirements.

With **over 37** years of experience as a LOCAL professional photographer since 1985, I would be happy to include you in the continually growing number of extremely satisfied clients, past, present and hopefully, future.

I have been asked by several brides recently to come out of semi-retirement to photograph their weddings, as they wanted a known Photographer they could trust, I then realized how much I enjoyed and missed my favorite passion – PHOTOGRAPHY!

Your event will be captured using Quality Digital NIKON equipment, your assurance that this all too important day is not left to chance.

We offer a clear pricing strategy, and no hidden costs, so financial budgeting is made easier, making your day a day to remember.

All our Wedding Album & Digital Packages include photography at the venue of the ceremony and the reception if required until you sit down for your wedding meal (usually about 1 ½ -6 hours). Additional cover can be provided for additional cost by negotiation, but some packages include free extras.

Multi-size Custom Bespoke ETERNAL LOVE Packages include extra coverage before the ceremony and a CD/DVD of the images included in your album.

Our images are printed using professional chemical “wet” printing for image stability, quality and longevity- they are NOT cheaper INKJET prints

We offer secure transactions using **PAYPAL**, either online or by telephone, and we still currently accept cheques and cash too.

This brochure lists the current packages available to you, and as all weddings and Civil Ceremonies are different and spontaneous events, you can customise your package to your own individual taste and budgetary requirements. (Options include Hi-res images on CD or DVD, Album Packages with multiple photo and size options, combined CD/DVD and Album packages, the choice is yours).

It's your wedding, so you decide. !

Feel free to contact me to discuss your requirements.
